### Roles and contributions

- **Jade Chen (me):**
  - data validations, preprocessing script, Makefile, project coordination, documentation
- **Johnson Leung:**
  - data validations, EDA, documentation, quarto document
- **Jasjot Parmar:**
  - data validations, download, quarto, references, project coordination, documentation
- **Eugene Tse:**
  - data validation, model scoring, project coordination, quarto, documentation

### What went well

- clear division of tasks
- effective Git workflow with minimal merge conflicts

### What went poorly

- lots of edits that need to be made from peer reviews and TA feedback
- honestly not much! everyone was pretty involved
